

Table 2 Showed Prevalence and seasonal dynamics of infestation by *Amyloodinium ocellatum* of European Seabass *Dicentrarchus labrax*. in 2015-2016

Season	No. of Fish Examined	No. of Fish Infested	Prevalence %	species	Infected organs
Spring	546	492	90.10%	Fry	G.S
Summer	222	75	33.78%	Fry	G.S
Autumn	219	108	49.32%	fingerling	G.S
Winter	78	24	30.77%	Adults	G
Total	1065	618	58.02%		
$\chi^2_{Calc.}$	73.55	P-value		< 0.0001	

Note: G: gills; S: Skin
