

Table 6 Comparison of Mortality number and percentage among treated groups No. (%) after (30 min.) treatment (.G: group W week)

Groups	W1	W2
Control –Ve(G1)	0 (0%) <sup>a</sup>	0 (0%) <sup>b</sup>
Control +Ve(G2)	1 (3.33%) <sup>a</sup>	3 (10.0%) <sup>a</sup>
100 ppm (G3)	1 (3.33%) <sup>a</sup>	0 (0%) <sup>b</sup>
200 ppm (G4)	0 (0%) <sup>a</sup>	0 (0%) <sup>b</sup>

Note: Percents within the same column sharing the same subscript are not significantly different at  $p < 0.05$  in the two-sided test Z-test. Tests are adjusted for all pairwise comparisons using the Bonferroni correction
