

Table 2: The most dominant species (organisms/m<sup>3</sup>) and their percentages to total organisms.

<b>Species</b>	<b>Average (organisms/m<sup>3</sup>)</b>	<b>% of total species</b>
<i>Tintinnopsis beroidea</i>	302	9.1
<i>Favella ehrenbergi</i>	285	6.9
<i>Diffugia oblonga</i>	104	3.1
<i>Favella panamensis</i>	172	3.1
<i>Favella azorica</i>	102	3.1
<i>Tintinnopsis lobiancoi</i>	90	2.7
<i>Tintinnopsis rotundata</i>	425	2.6
<i>Favella markzowski</i>	126	2.3
<i>Tintinnopsis campanula</i>	68	2.1
<i>Favella serrata</i>	84	2.0
<i>Tintinnopsis radix</i>	82	2.0
<i>Centropyxis aculeate</i>	65	2.0
<i>Tintinnopsis fracta</i>	81	2.0
